

# Reinventing Food protection

We transform food protection with unique protein-based biocontrol solutions, shaping the future of sustainable and safe food supply.

Our products offer farmers safe, reliable and cost-effective tools to prevent crop loss while extending post-harvest protection and reducing food waste.

Founded in 2013 \$66M raised with EU and U.S. investors

Targeting 22M ha of high-value crop protection markets

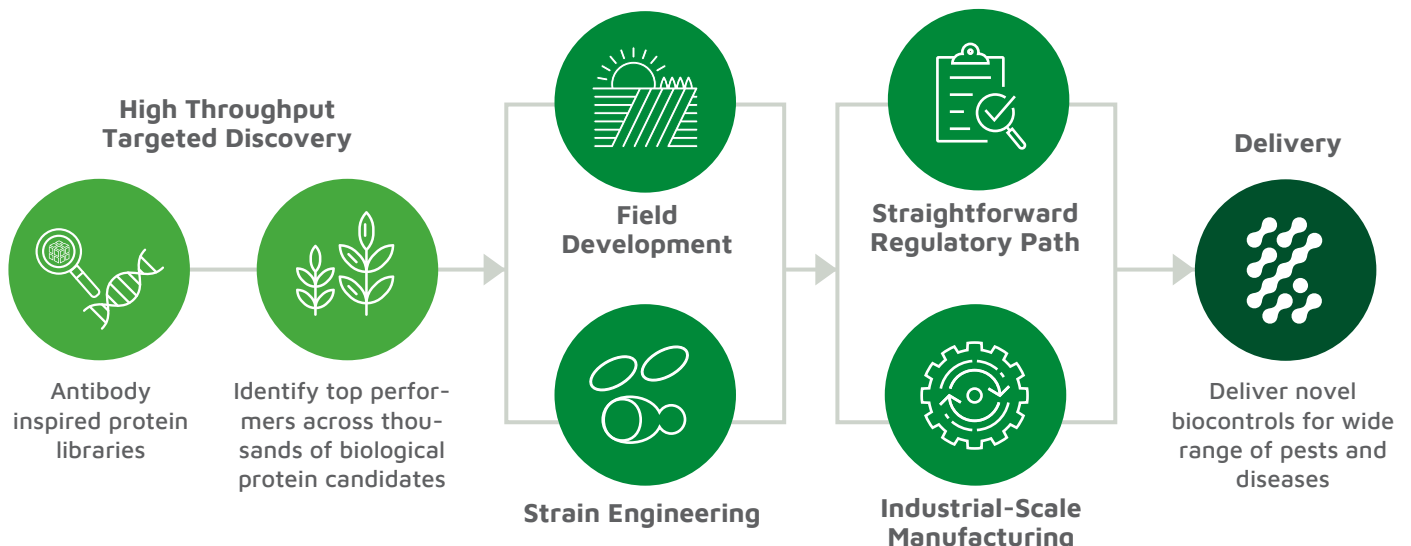

Committed to reducing food waste and drive sustainability of production

Diverse product pipeline addressing critical crop pests and diseases

## Proprietary, protein-based biocontrol R&D platform

From idea to market > 3 years faster, at ~10% of the average cost in the chemical pesticide industry

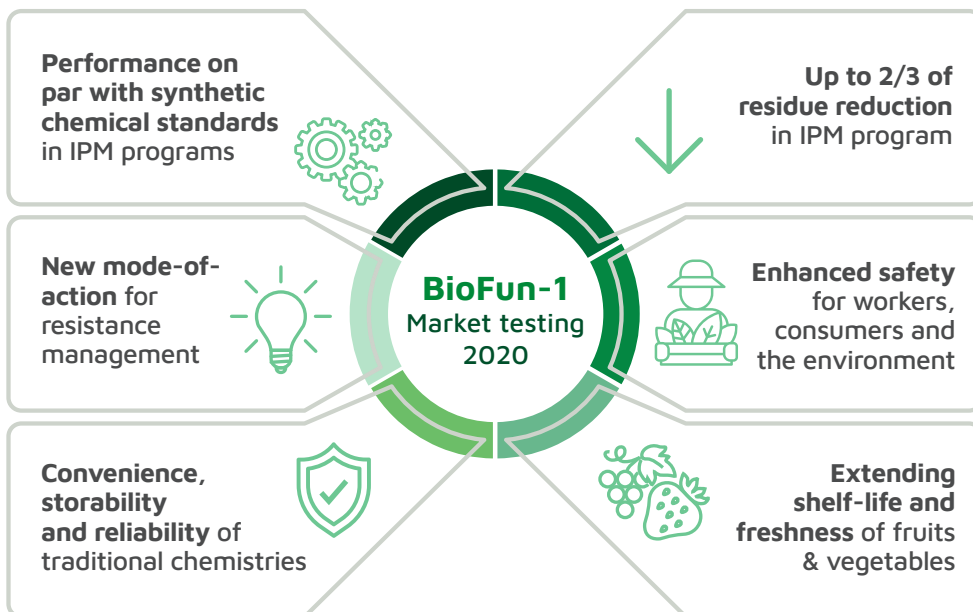

# Safe food Better planet

1.6 billion tons  
of food are  
wasted every year

Making strides to  
fight the food  
waste challenge

## Biocontrol fungicide with contact activity for preventive control of *Botrytis cinerea* and Powdery mildew

## Broad R&D Pipeline
