votes by letter in the following way in respect of the special shareholders meeting dated 29 March 2024 (and any other meeting with the same agenda).

AGENDA

1. Special report of the Board in accordance with article 7:228 of the Belgian Code on Companies and Associations

Submission of the special report of the Board in accordance with Article 7:228 of the Belgian Code on Companies and Associations in relation to the proposal to continue the operations of the Company, as set out below in item 2 of the agenda.

No vote is required in connection with this agenda item.

2. Deliberation and decision on the proposal of the Board of Directors to continue the operations of the Company

In accordance with Article 7:228 of the Belgian Code on Companies and Associations the shareholders meeting is to deliberate and resolve, as the case may be, on the dissolution of the Company and possibly on other measures announced in the agenda.

Measures that can safeguard the continuity of the Company

From the start of its operations, the Company is aware that research and development costs will increase for a number of years before any prospect of commercial revenues is possible.

The Board of Directors reviewed and approved the necessary budgets and cash planning prepared by the Executive Committee for the operation of the Company in 2024 and 2025, taking into account available financial resources.

The Board of Directors believes that the restructuring measures that have already been adopted in 2023 combined with potentially obtaining additional financing through equity, grants, partnerships and/or other sources of financing should enable the Company to continue its operations.

¹ Only applicable to holders of subscription rights issued under the long term incentive plans of the Company for its and its subsidiary's personnel. The Company has not issued any other subscription rights. Holders of subscription rights only have an advisory vote.

The Board of Directors is of the opinion that the possibility of obtaining additional financing can be substantiated by the progress that the Company has made during 2023:

- The Company entered into various collaborations (including with academic institutes) to further develop the technology platform and support the pipeline programs.
- EVOCA™, Biotalys' first protein-based biocontrol candidate aimed at targeting botrytis bunch rot and powdery mildew in fruits and vegetables, continued to demonstrate its efficacy in extensive global field trials, both in the Company's own trial program as well as in independent academic trials in the U.S. The Company continues to work with the EPA (Environmental Protection Agency) in the U.S. and the CTGB (College voor de Toelating van Gewasbeschermingsmiddelen en Biociden) in Europe on EVOCA™ regulatory review. Pending the decision on the regulatory files, the Company continues to pave the way for its next generation of the product-candidate (EVOCA™ NG), a biofungicide program with the same bioactive as EVOCA™ but an optimized production process and formulation, leading to lower production costs which results in an attractive commercial potential.
- Following a strategic review of the Company in Q3 of 2023, the company announced a shift to the AGROBODY™ 2.0 platform to develop its protein-based biocontrols for crop and food protection. This next-generation AGROBODY™ technology is aimed at increasing potency and efficacy of the Company's bioactive agents with multiple modes of action while lowering cost of goods.
- Continued focus on the pipeline development (BioFun-4, BioFun-6, BioFun-7 and BioIns-2).

The Board of Directors therefore proposes to continue the Company's operations. For more information on the measures the Board of Directors proposes to take to address the financial situation of the Company, and its proposal to continue the operations of the Company, reference is also made to the special report of the Board of Directors referred to in item 1 of the agenda of the Shareholders Meeting.

Proposed resolution: The shareholders meeting resolves to approve the proposal set out in the special report of the Board of Directors, prepared in accordance with Article 7:228 of the Belgian Code of Companies and Associations, to continue the operations of the Company.
